Peach Health Integration Platform

Peach Health Asia

Louis Payet

COMPANY PROFILE

Peach Health addresses the largest un-met need in the digital health space; how to commercialise digital health products

WHO WE ARE

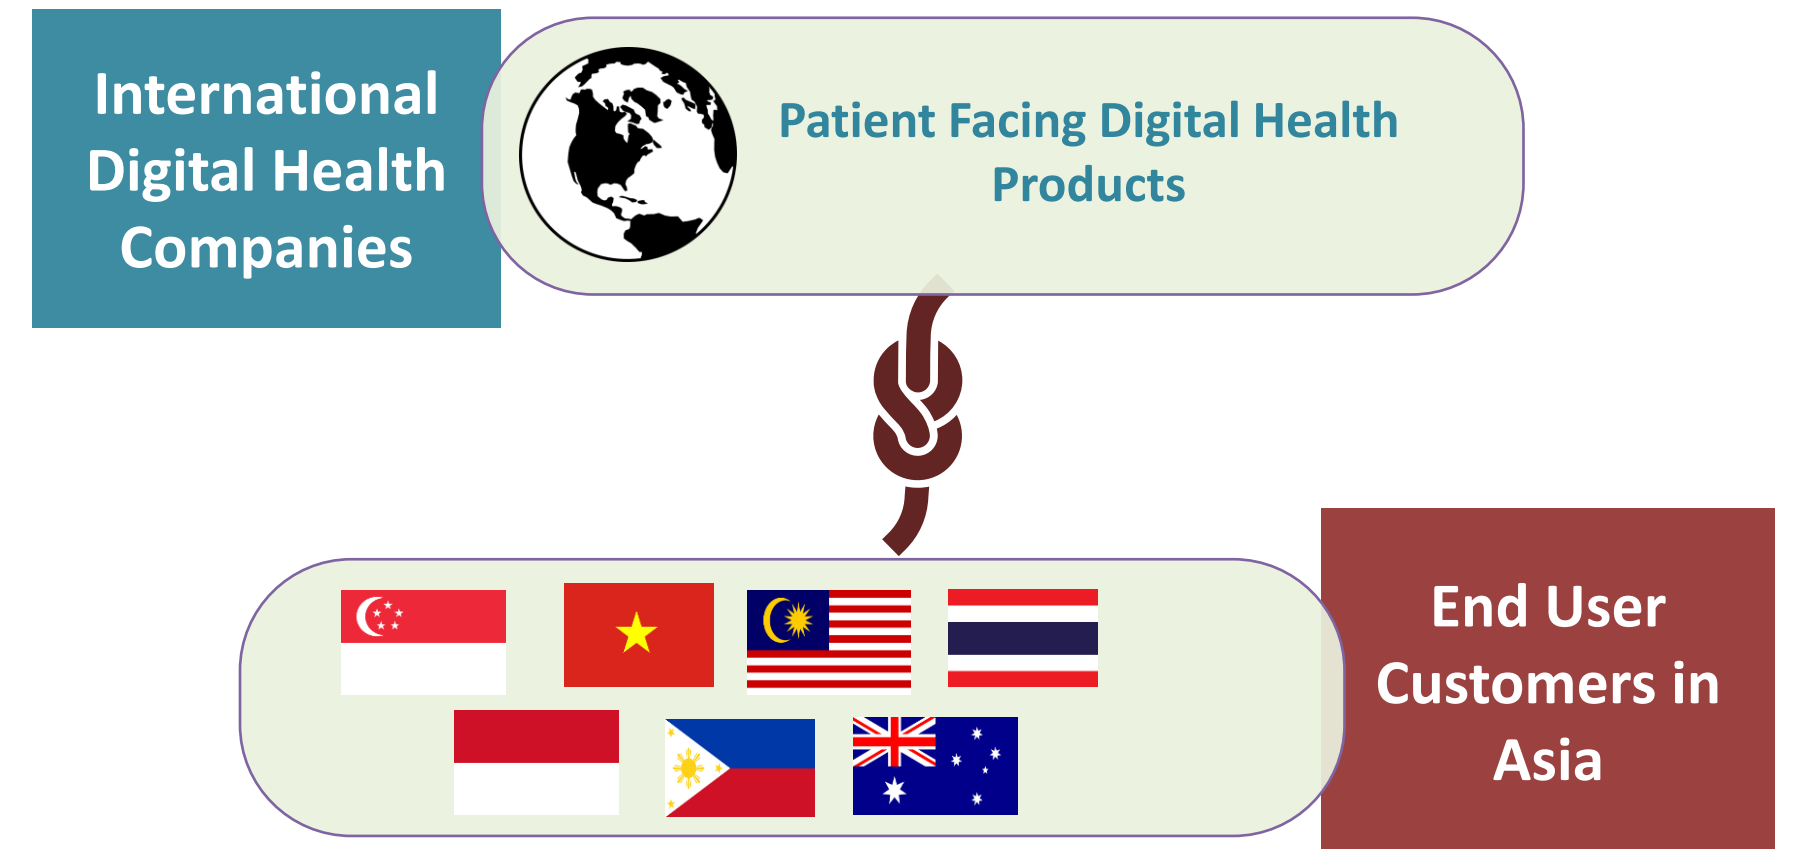

Peach Health is a pre-seed start up headquartered in Singapore. We specialise in commercialising third party digital health products in Southeast Asia and Australia

OUR VISION

To improve health equity in our territories by selling accessible patient-centric healthcare options

WHAT WE DO

Identify un-met needs in the region and use our commercial capabilities to secure and deploy digital health solutions that address these un-met needs

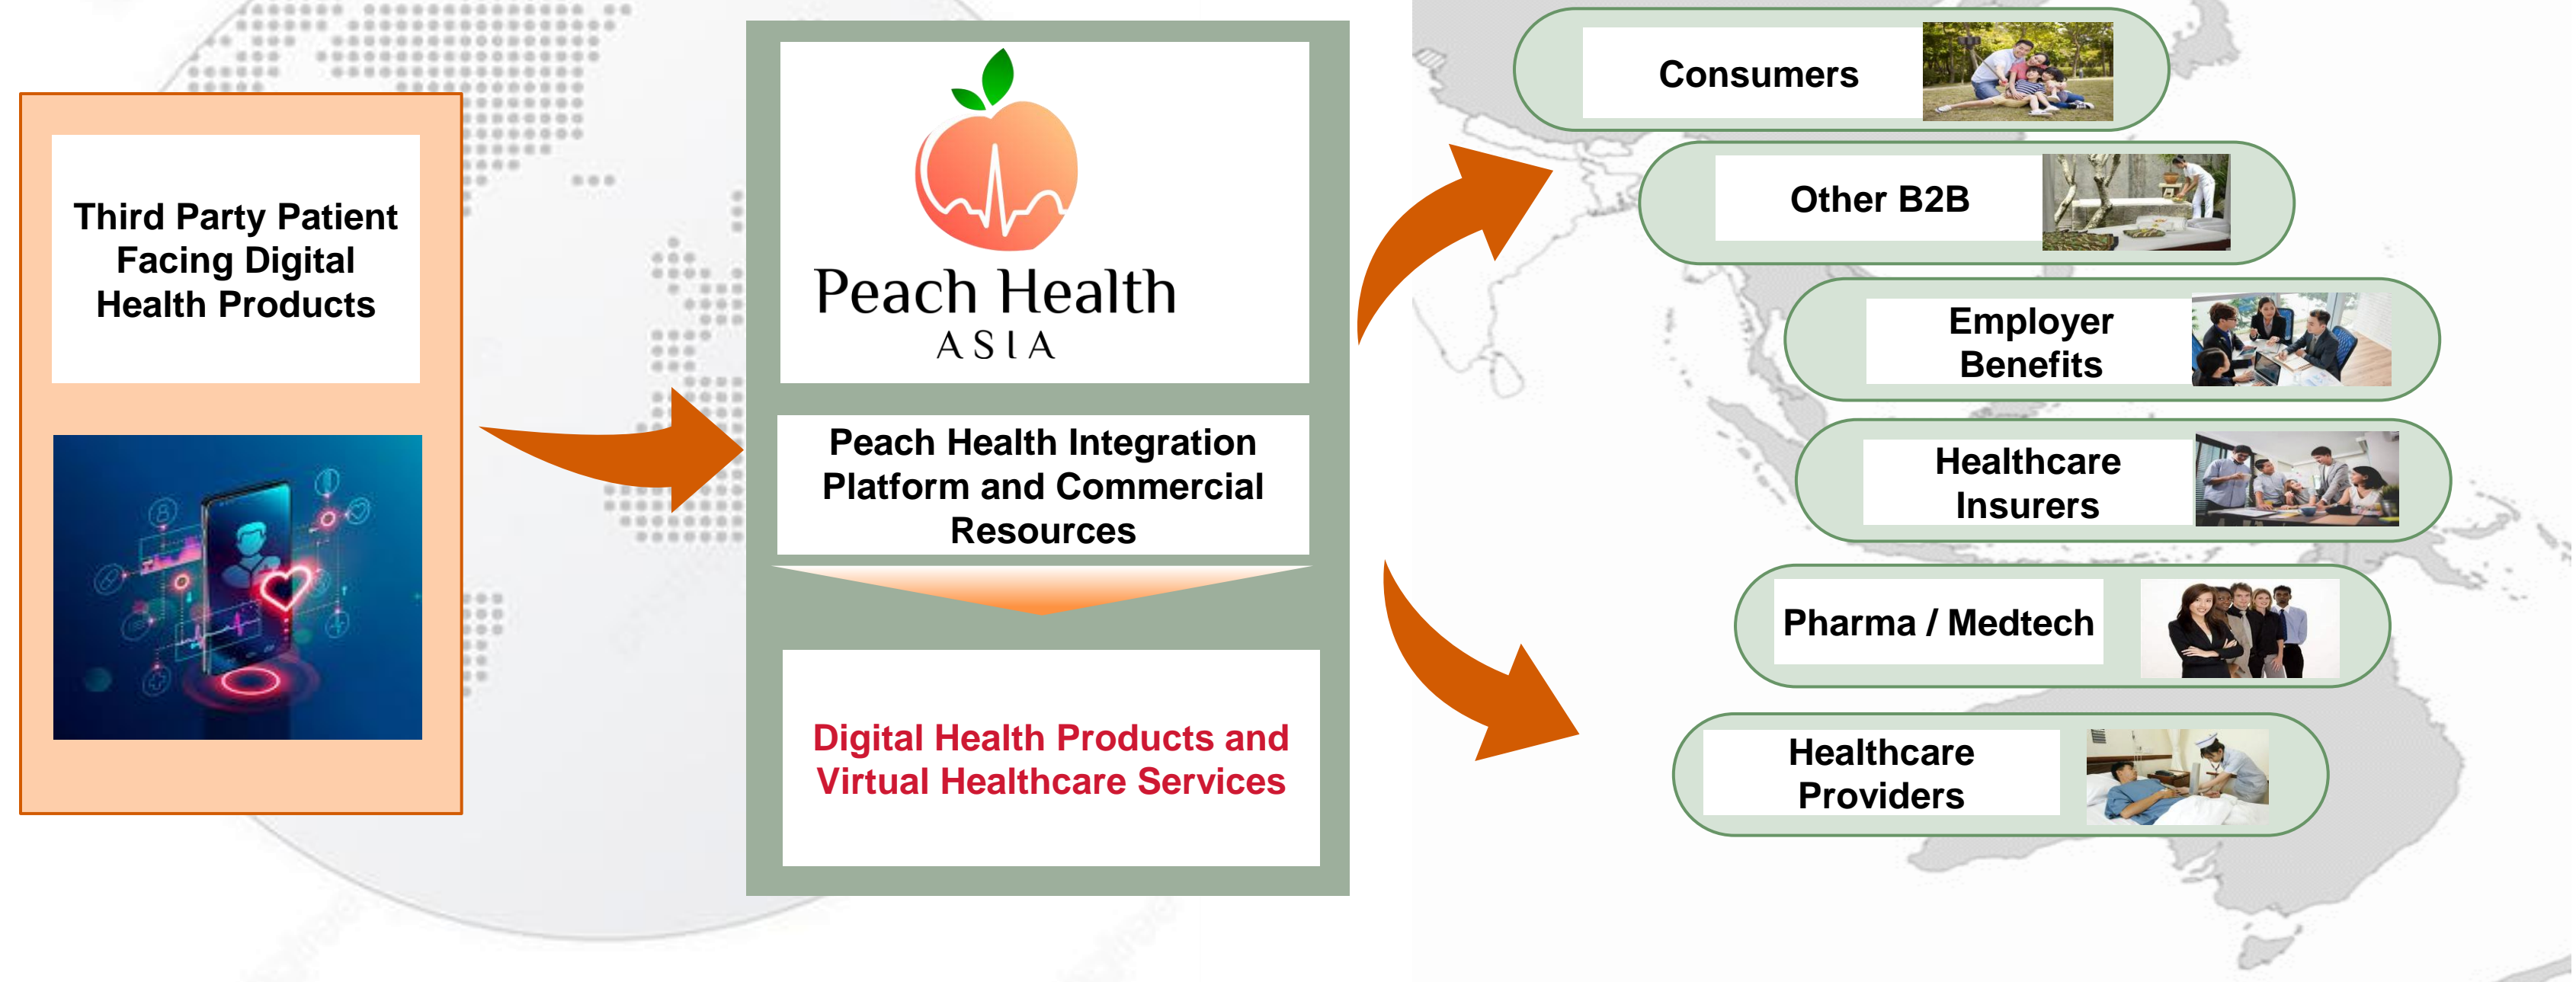

Peach Health is a bridge between international markets and the regional markets

TEKTITE2025

COMPANY PROFILE

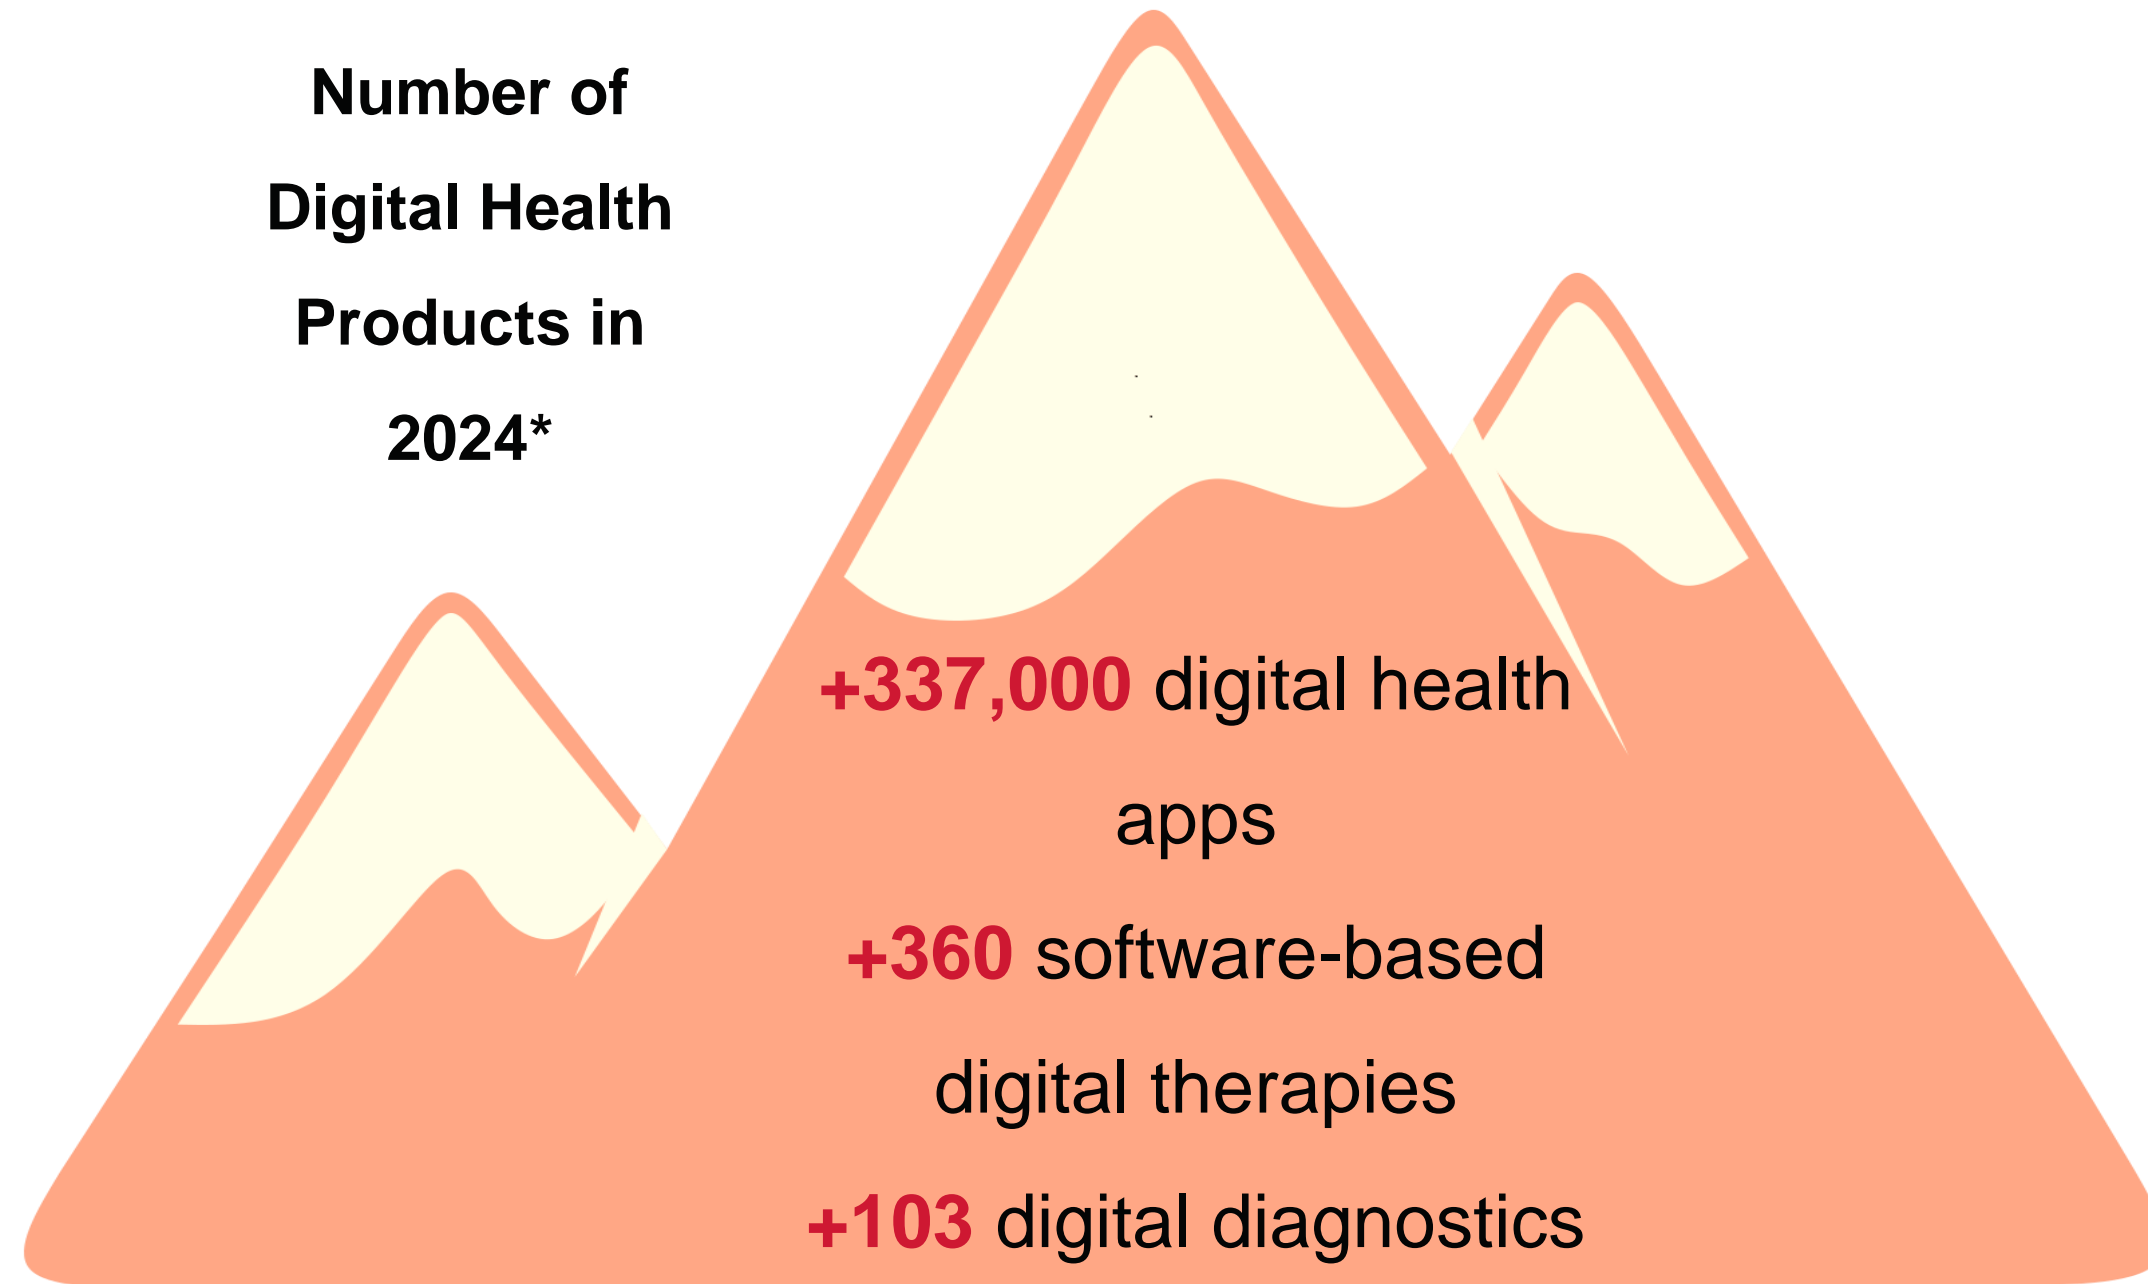

Peach Health provides a key enabling function in the market easing the access journey for all stakeholders in the market

THE PROBLEM STATEMENT

There are a huge number of digital health products available but less than 0.01% have generated any commercial success

Number of
Digital Health
Products in
2024*

Less than 10 - 20
achieved any
significant
commercial revenue

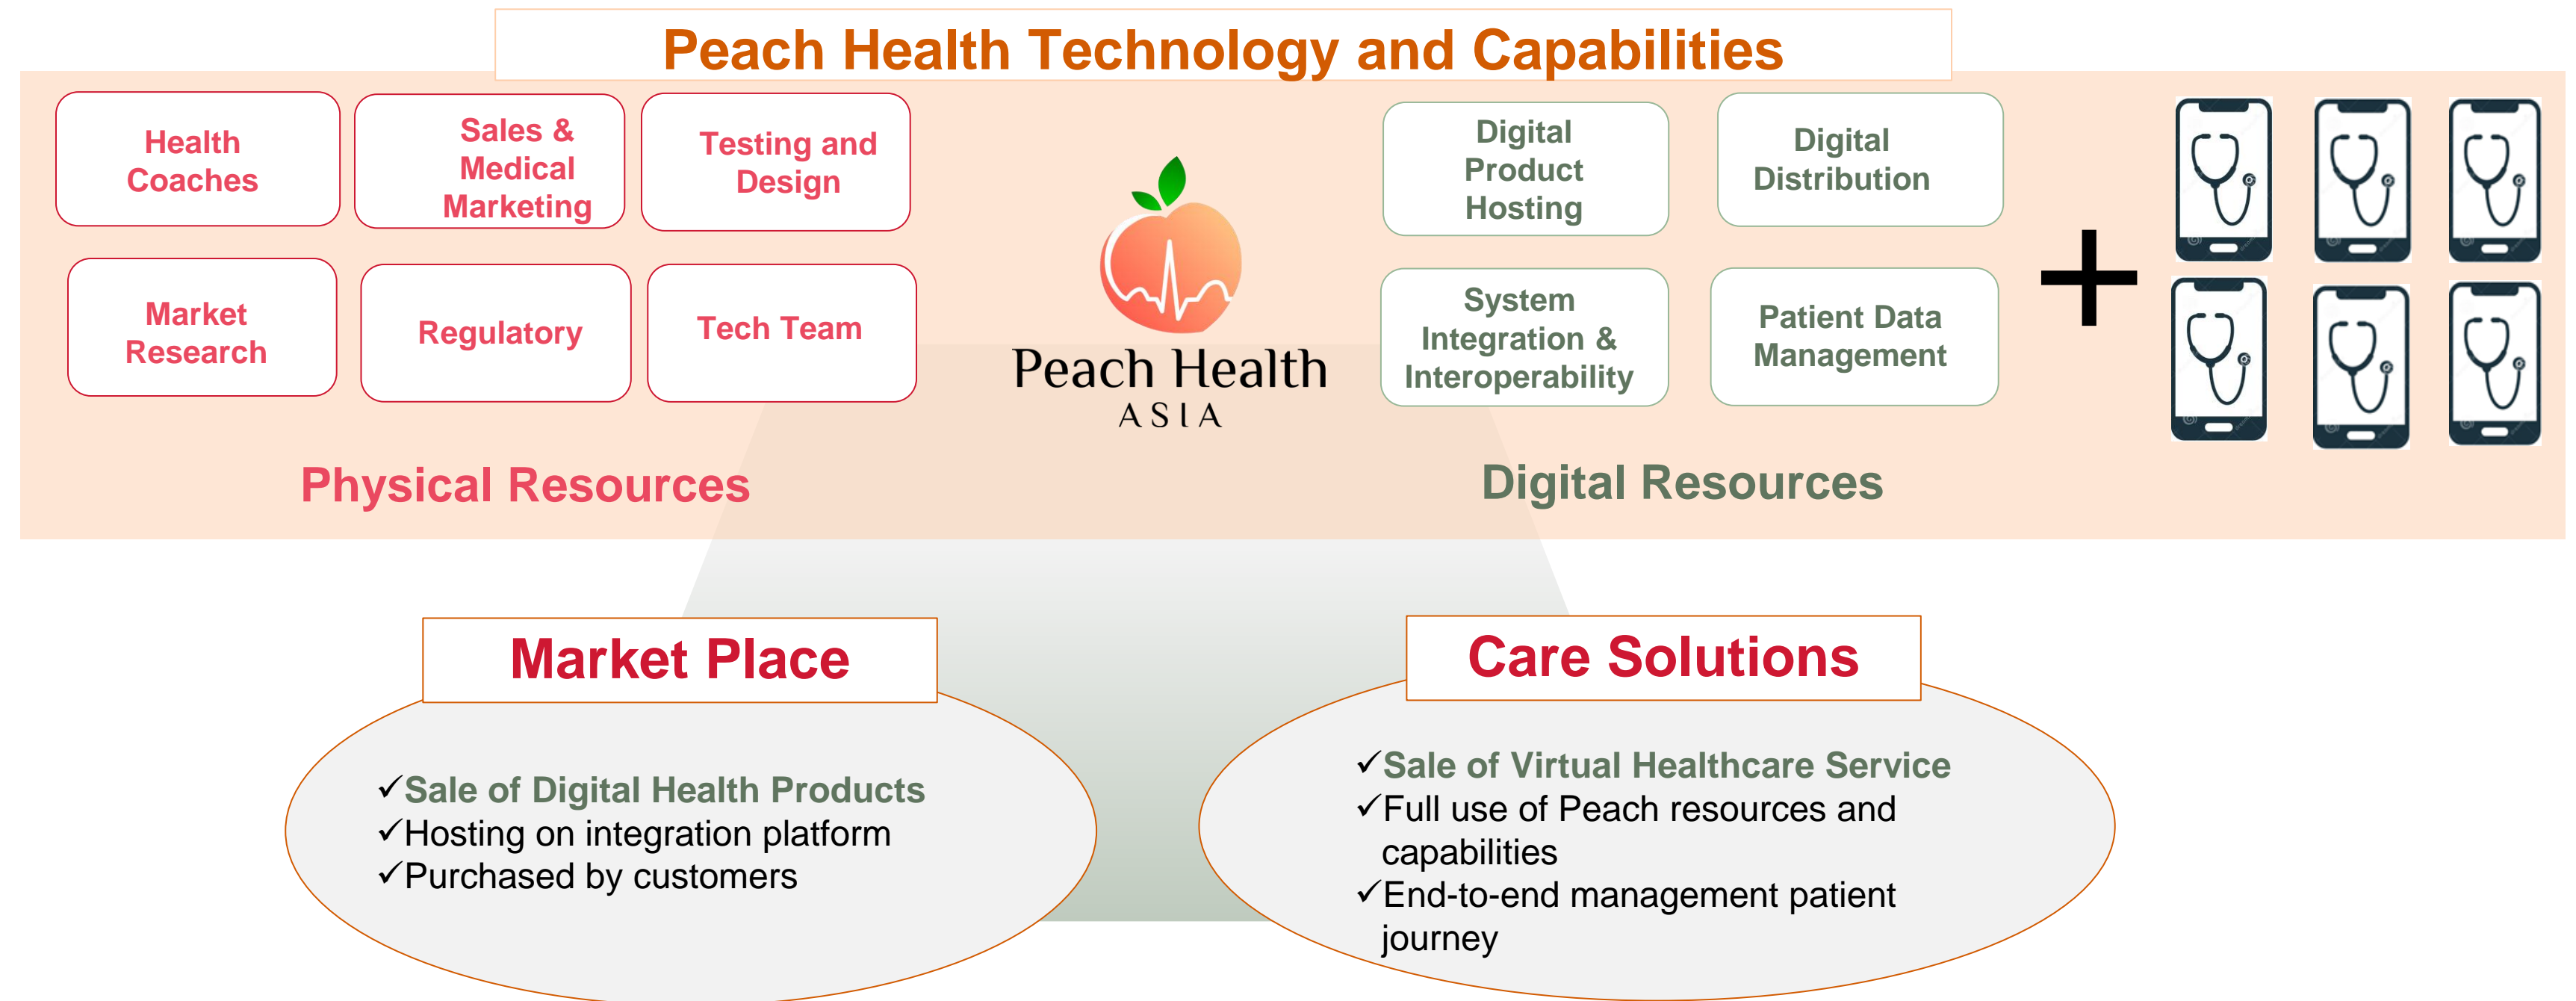

An **inability to commercialise** and not the availability of technology is the biggest weakness in the digital health sector

TEKTiTE2025

TECHNOLOGY OFFER

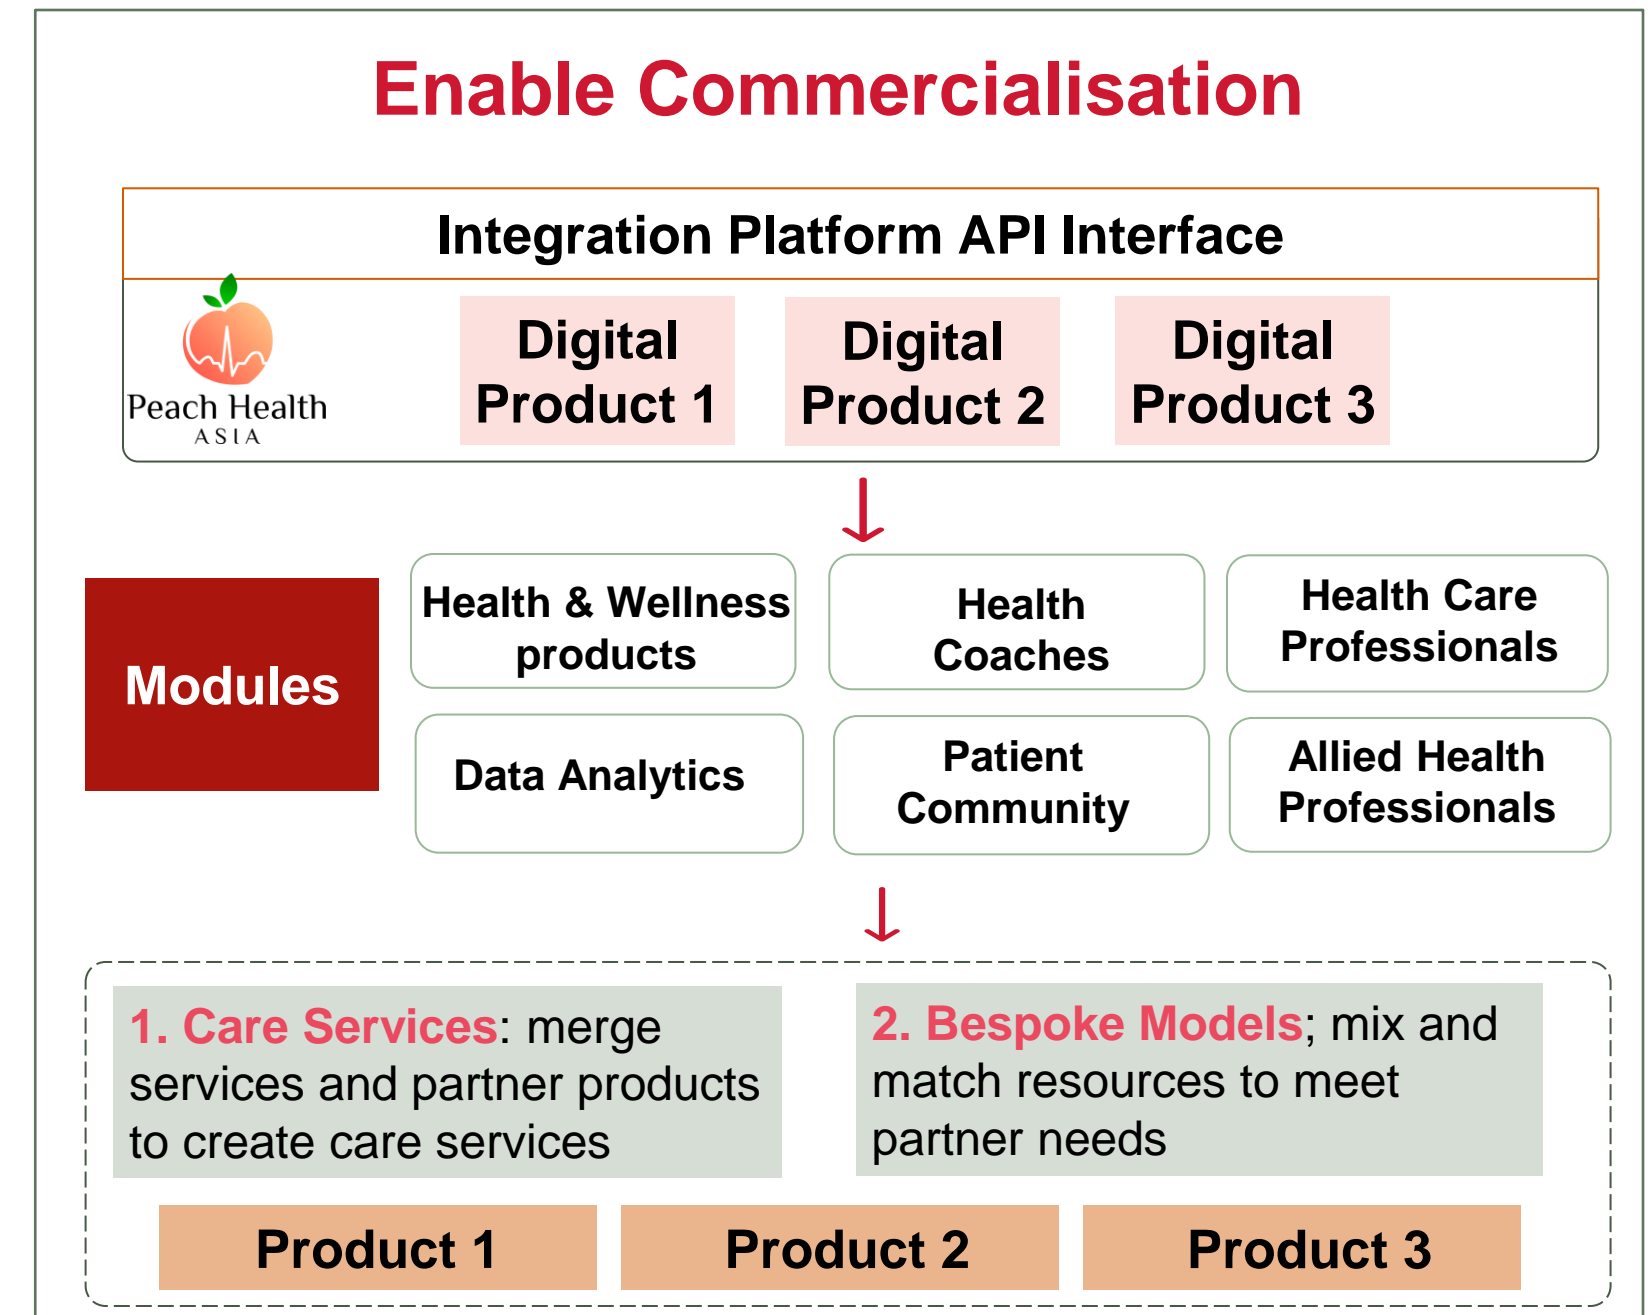

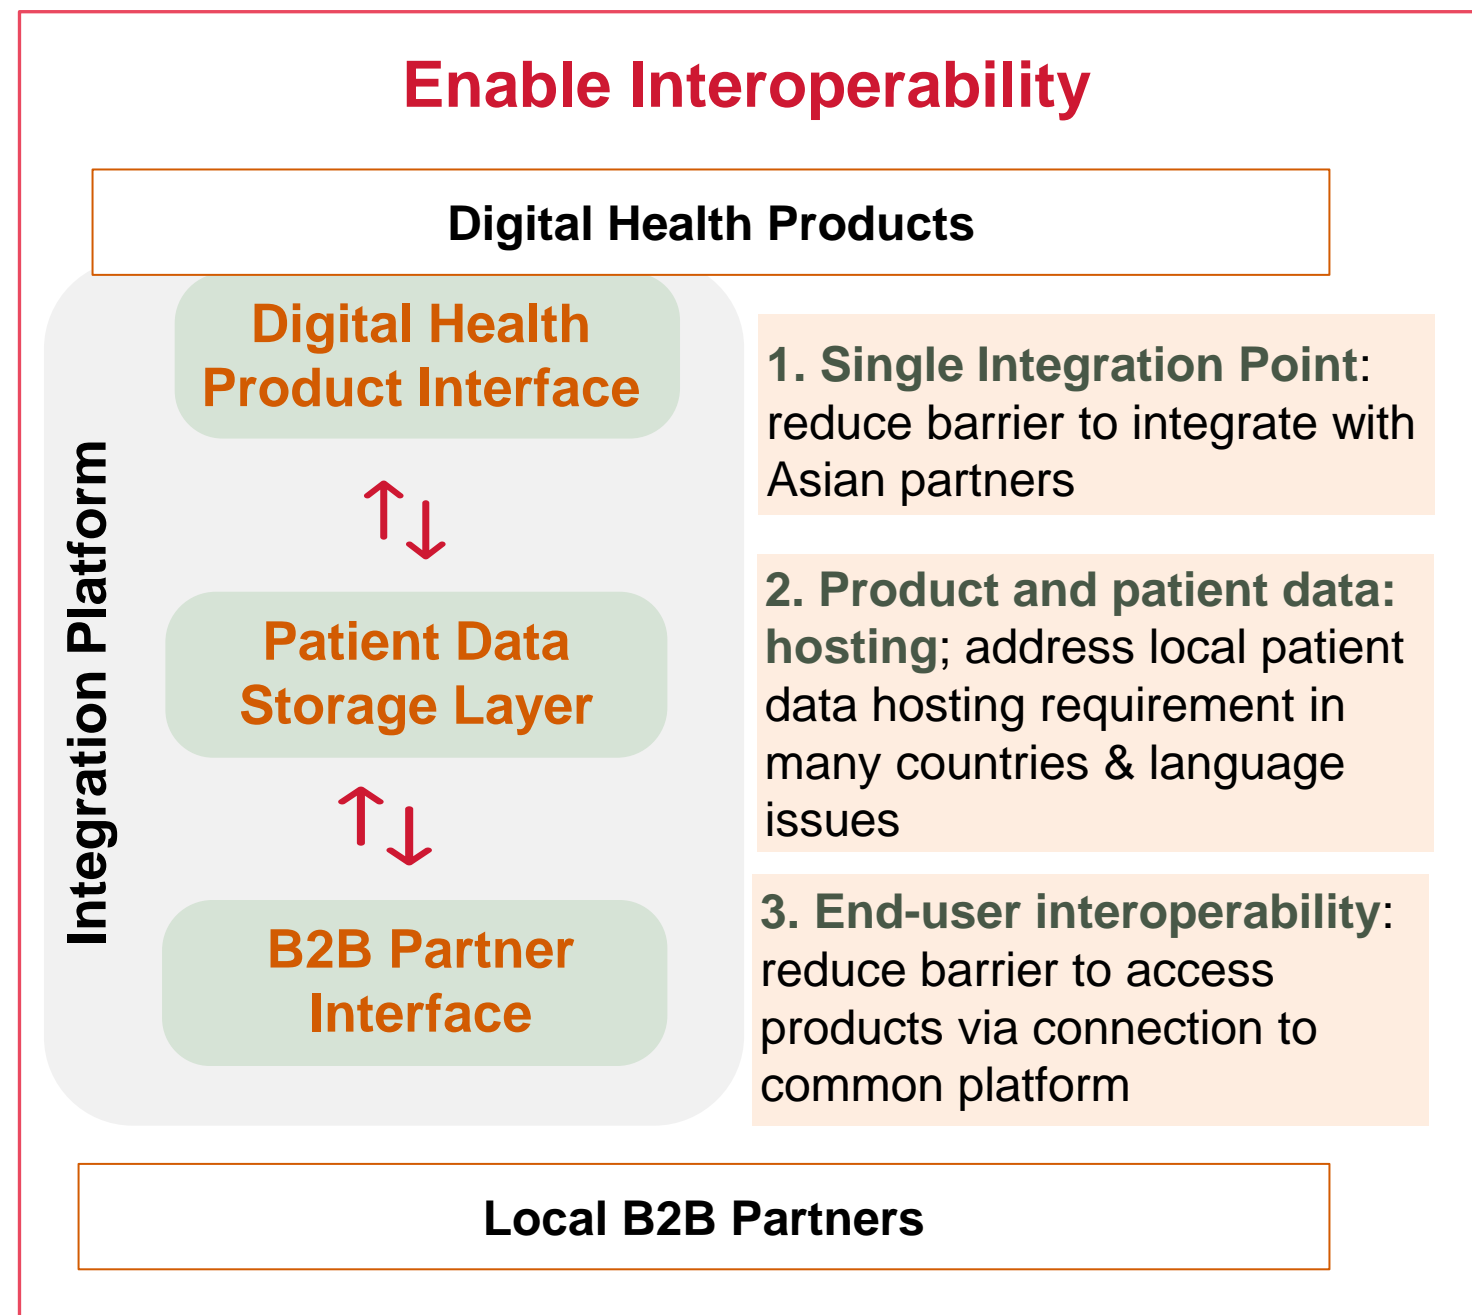

Unique blend of physical and digital resources packaged in flexible commercial models designed to meet the need of customers in Asia

TEKTiTE2025

TECHNOLOGY OFFER

Our integration platform powers our commercial model by facilitating connectivity with both sets of partners

MODE OF COLLABORATION
